

SUDHEER SHARMA

Mern Full Stack Developer

📞 9616290104 ✉ sudheersharma7906@gmail.com 🔗 LinkedIn 🐙 GitHub 📁 Portfolio 📍 Greater Noida, India

PROFESSIONAL SUMMARY

Computer Science undergraduate specializing in Artificial Intelligence and Machine Learning with strong proficiency in JavaScript, React.js, Node.js, Express.js, MongoDB, HTML, CSS, SQL, Git, and Data Structures & Algorithms. Skilled in developing scalable web applications, designing RESTful APIs, and applying software engineering best practices to solve real-world problems. A quick learner with strong analytical, problem-solving, and collaboration skills, committed to writing clean, efficient, and maintainable code. Eager to contribute technical expertise, innovative thinking, and a growth mindset to build high-quality software solutions and support organizational success

EDUCATIONS

Dr. A.P.J. Abdul Kalam Technical University | Lucknow Uttar Pradesh 2024
Bachelor of Technology CGPA : 7.8

- **Bachelor of Technology, Dr. A.P.J. Abdul Kalam Technical University, 2024, CGPA 7.8**

CBSE | Sant kabir Nagar Uttar Pradesh 2023
Intermediate Percentage : 78.8

- **Intermediate, CBSE, 2023, Percentage 78.8**

CBSE | Gorakhpur Uttar Pradesh 2021
High School percentage : 76.6

- **High School, CBSE, 2021, Percentage 76.6**

SKILLS

Databases :	MongoDB, MySQL, Supabase, Firebase
Frameworks & Libraries :	Tailwind CSS, React, Next.js, Node.js, Express
Languages :	Hindi, English
Programming Languages :	HTML, CSS, JavaScript, React.js, C++, Java, Python, PHP, TypeScript
Soft Skills :	Problem Solving, Time Management, Communication, Creativity, Leadership
Tools & Platforms :	Microsoft Excel, Microsoft Power Point, Microsoft Word, Git, GitHub, Linux, GitLab, Postman

CERTIFICATIONS

GenAI Powered Data Analytics Jun 2026
TATA Group (via Forage Simulation)

Certification Url : <https://portfolio-jade-two-15.vercel.app/>

Data Analytics & Forensics Certificate Mar
Deloitte (via Forage)

Certification Url : <https://portfolio-jade-two-15.vercel.app/>

NodeJS + ExpressJs + MongoDB Course Jul 2026
KnowledgeGate Course Certification

Certification Url : <https://portfolio-jade-two-15.vercel.app/>

WORK EXPERIENCE

Content Writing | Internship Mar 2026 - Apr 2026
InAmigos Foundation Remote • [greater noida/parichowk](#)

Work Experience / Internship Description:

- Worked as a Content Writing Intern at InAmigos Foundation for 1 month.
- Created and edited content for campaigns and organizational activities.
- Learned fundraising strategies and donor communication techniques.
- Collaborated with team members on social awareness initiatives.
- Improved creative writing, research, and communication skills.
- Used tools like Google Docs and Microsoft Word for content management.

Technologies / Skills Used : Content writing, ChatGpt, WikiPedia

WORK EXPERIENCE

Data Analytics | Internship

Remote • greater noida/parichowk

TATA Via Forage

Analytics Job Simulation experience based on the certificate.

- Conducted **Exploratory Data Analysis (EDA)** to identify trends, detect anomalies, and develop customer risk profiles using data-driven techniques.
- Applied **Generative AI and machine learning concepts** to predict customer delinquency and support intelligent decision-making for financial risk assessment.
- Developed **business reports and data storytelling dashboards** to communicate analytical insights and improve collections strategy recommendations.
- Designed an **AI-driven collections strategy** by leveraging predictive analytics to optimize recovery efforts and enhance operational efficiency.
- Interpreted complex datasets using analytical thinking to generate **actionable business insights** for stakeholders and support strategic planning.
- Strengthened practical skills in **data analytics, AI-assisted decision-making, business intelligence, and problem-solving** through a hands-on virtual job simulation by Tata and Forage.

Technologies / Skills Used : MicroSoft Excel, MicroSoft PowerPoint, ChatGpt, MicroSoft Word

PROJECTS

Airbnb | Website Github

Jun 2026 - Jul 2026

Developer

- Developed a **full-stack Airbnb Clone** using the **MERN Stack (MongoDB, Express.js, React, Node.js)**, featuring secure user authentication, property listings, and a responsive user interface for seamless booking experiences.
- Implemented **JWT-based authentication**, role-based access (Host & Guest), password encryption, and user profile management to ensure secure login, registration, and account management.
- Built advanced property management features including **CRUD operations**, image uploads, property search, filtering, sorting, wishlist functionality, and user reviews with ratings.
- Integrated **booking and payment workflow** with Razorpay (including demo payment support), enabling users to reserve properties, manage bookings, and receive booking confirmations in real time.
- Designed and deployed a **responsive, production-ready application** with RESTful APIs, MongoDB database integration, optimized backend performance, and cloud deployment, following modern full-stack development best practices.

Technologies / Tools Used : React, Node.js, Express, MongoDB, Tailwind CSS, JWT, REST API, RazorPay

Real Time Chat App | Github

Mar 2026 - Apr 2026

Developer

- Developed a **full-stack Real-Time Chat Application** using the **MERN Stack (MongoDB, Express.js, React, Node.js)** with [Socket.IO](#) to enable instant one-to-one and group messaging.
- Implemented **secure user authentication** using **JWT**, allowing users to register, log in, manage profiles, and maintain authenticated chat sessions.
- Built real-time communication features including **instant message delivery, online/offline user status, typing indicators, message timestamps, and chat history** to provide a seamless user experience.
- Integrated **Cloudinary** for profile image uploads and **MongoDB** for efficient storage and retrieval of user information and chat messages, while designing scalable **RESTful APIs** for frontend-backend communication.
- Designed a **responsive and modern chat interface** with React, optimized backend performance for concurrent users, and deployed the application using cloud hosting with Git and GitHub for version control and collaboration.

Technologies / Tools Used : React, Node.js, Express, MongoDB, Tailwind CSS, JWT, Socket.IO, REST API
